The yield has been uniformly good every year except 1900, when there appears to have been a slump all along the line. This, however, was more than compensated for in the following year, when the bumper crop in wheat, oats and barley put the returns of all previous years completely in the shade and gave an impetus to settlement in the west which has prevailed to the present, as the following table by

acres sown to wheat, oats and barley in 1898 was 429,749, and that this had increased in 1904 to 1,587,337. The total crop in the cereals mentioned was 9,033,297 bushels in 1898, and in 1904 it had grown to the magnificent total of 35,413,522. In the year just closed the "forward movement" in the agriculture of the west has been the wonder and envy of the world. New sections of the country have been placed under tribute to the plow and harrow, and the grain area has been largely increased. This is particularly the case where it has been demonstrated that "Alberta Red" winter wheat may be successfully grown, and along the lines of the new railways towards the centre of the country, where mixed farming prevails.

The future of the Canadian West is assured, and for years to come it is bound to be the land of promise to the agriculturist of every nation and of every clime, and the land of opportunity to every settler within its

WINTER WEAKNESS

Dr. Williams' Pink Pills the Tonic That Most People Need for Blood and Nerves.

In winter the nir of the close rooms in which we spend so much of the time does not furnish enough oxygen to the lungs to burn out the foul matter in the blood. In the cold season we do not exercise as much and the skin and kidneys do not throw off the waste matter as freely as usual. The system becomes overloaded with poisonous matter, and too feeble to throw it off. Relief can be bad only through the use of a remedy that will promptly and thoroughly purify and strengthen the blood, and the one best adapted for this purpose is the great blood tonic known as Dr. Williams' Pink Pills.

"They acted like magic in my case," said Mrs. Clara L. Wilde, of No. 377 Farnsworth avenue, Detroit, Mich. was weak and thin and could not sleep. My stomach and nerves were out of or-I can't describe how miserable I really was. I dragged through six months of feebleness, growing weaker all the time until I finally hadn't strength

"Then a glad day came, the day when I began to take Dr. Williams' Pink Pills. They made me feel strong right away. My appetite came back, I took on flesh and the color returned to my cheeks. People wondered that these pills did for me what the doctors couldn't do. I took only six boxes and then I was perfectly If I had not found this wonderful remedy I surely think that I must have wasted to death. Believing firmly that these pills saved my life by the strength which they gave me at a critical mo-ment, I unhesitatingly recommend them to others.

BABY COVERED WITH SORES.

Would Scratch and Tear the Flesh Unless Hands Were Tied-"Would Have Died But for Cuticura."

"My little son, when about a year and a half old, began to have sores come out on his face. I had a physiclan treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My aunt advised me to try Cuticura Soap and Ointment. I sent to the drug store and got a cake of the Soap and a box of the Ointment, and at the end of about two months the sores were all well. He has never had any sores of any kind since. He is now strong and healthy, and I can sincerely say that only for your most wonderful remedies my precious child would have died from those terrible sores. Mrs. Egbert Sheldon, R. F. D. FACTS IN NATURE.

Not Only Do We Get Inspiration Prom
Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpki liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more appearent that Nature's most valuable health giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalidal Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering allments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torplel liver, or bliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belehing of gas, constipation, or irregular bowels, feel flashes of heat alternative with shells supported and increase in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belehing of gas, constipation, or irregular bowels, feel flashes of heat alternative with shells.

TOOK OLD GENTLEMAN'S ADVICE

Just the Counsel Fond Lover Was Looking For.

"The late Bishop Thomas Prederick Davies of Detroit," said a Detroit man, "once told me an interesting story of an elopement. He figured in this elopement as the officiating clergyman. It was in Philadelphia, during his rectorable of St. Peter's.

"It seems that the proprietor of one of the largest dry goods houses in Philadelphia had noticed for some months the melancholy of his head clerk, a young men whom he held in high regard.

"The clerk's pai'or and increasing leanness, his frequent sighs and absent-mindedness werried the millionaire proprietor. He questioned the young man daily. And finally the clerk admitted to him that he was in

Prospective Jurors Greatly Puzzled

By Legal Terms. Some of the strange makeshifts to which a man will resort to conceal his lack of knowledge on any particular line were graphically related by Attorney Elliott, who had hard work in his share of the impaneling of the now famous Gilnooley jury.

A tall Swede was brought in. He gave his name, etc., and was then questioned by the attorney as to legal terms to be used in the case, "What do I mean when I say, 'It will devolve on the prosecution to produce the preponderance of evidence'?"

"Vell, what you say evolve, dissolve, don't know," came the answer. A German entered and this phrase was put to him: "It will be the task of the defense to show mitigating circumstances, if such exist." Hopelessstumbling followed, one thought chasing the other with the dignity of Germanized English, which takes a long time to pass any one given point.

Golf in Cactus Center.

Well, we went up there quite cur'ous, and we watched him paste the ball, Till a-itchin' fer to try it seemed to get a-holt of all.

And at last Packsaddle Stevens asked to give the thing a swat,
And we gathered round to see him show the stranger what was what.

Well, the golfer stuck the spheeroid on a little pile o' dirt
And Packsaddle swiped and swatted, but he didn't do no hurt;
He barked his shins terrific, and he broke his little stick.
And when he heard a snicker, his guns came out, too quick.

We dropped senind the cactus with some holes clipped in our clothes, While the golfer for the sky-line wagged his checker-boarded hose; And when we took home Stevens, and three others that was hurt. The golf ball still was settin' on its little pile o' dirt.

So we ain't no new St. Andrew's, and we hope no golfer thinks

Any word authorized by Webster's dictionary will be counted, but no name of person. Both the singular and plural can be used, as for instance "grape" and "grapes." The letters in "Y-I-O-Grape-Nuts" may be repeated in the same word.

Geographical names authorized by Webster will be counted. Arrange the words in alphabetical classes, all those beginning with A to-gether and those beginning with E to

come under E, etc. When you are writing down the words leave some spaces, in the A. E. and other columns, to fill in later as new words come to you, for they will spring into mind every evening

It is almost certain that some conrestants will tie with others. In such cases a prize identical in value and character with that offered in that class shall be awarded to each. Each one will be requested to send with the list of words a plainly written letter describing the advantages of Grape-Nuts, but the contestant is not re-quired to purchase a pkg. These letters are not to contain poetry, or fancy flourishes, but simple, trutbful statements of fact. For illustration: A person may have experienced some incipient or chronic alls traceable to unwise selection of food that failed to give the body and brain the energy, health and power desired.
